ABOUT ME

As a recent IT graduate, I'm seeking open opportunities and innovative projects/collaborations. Currently, I'm focused on deepening my understanding of front-end web development, gaining practical experience with databases, and honing my abilities to build complete full-stack web applications. With a lifelong passion for continuous learning, I'm excited to leverage my skills and knowledge to make meaningful contributions.

WORK EXPERIENCE

Digiole

03/2023 - 07/2023

UX/UI DESIGN TRAINEE

I contributed to the prototyping process under the guidance of senior designers. My role included refining designs through feedback loops. Additionally, I collaborated with a front-end developer, gaining valuable insights into React and the development workflow.

PROJECTS

TODO LIST

——— - ———

DESCRIPTION

A simple web app showcasing a to-do list, offering features for adding, deleting, and clearing tasks.
Visit: https://tranthanhvi.github.io/todolistreact/
